

28 DEC 1982

MEMORANDUM FOR: Chief, Logistics Services Division, OL

FROM: Bruce T. Johnson
Chairman, Fine Arts Commission

SUBJECT: Parking

1. At the last meeting of the Fine Arts Commission, the current level of congestion in the West Parking Lot was the subject of a lengthy discussion. Among the concerns expressed was the allocation of a significant number of parking spaces to apparently inactive motor pool vehicles at a time when the lot is so crowded that people are parking on the grass near the helipad.

2. I understand that a survey is under way to determine the causes of the parking overflow in West Parking, and that the survey is to include questions about the underutilization of spaces in the more remote lanes of South Parking. While you are investigating, I would be grateful if you would look into the possibility that inactive vehicles might be parked in less desirable space than that now occupied in West. Is it possible that additional parking for these vehicles could be created at the back of the motor pool compound?

Bruce T. Johnson
